

TECHNISEM

*New early and productive variety for
the tropics*

Squash SANA F1

Cucurbita pepo L.

This variety is an open field hybrid especially selected for the tropics. SANA F1 enables an early, regular and constant production thanks to a good fruit setting and a great vigour. Its open habit makes successive harvests easier and shelters the fruits from the sunburn.

PLANT

- Vigorous
- Open shape

FRUIT

- Slightly bulbous
- Light shining green
